

GVA Krefeld

Quality Assured Products

GVA Krefeld GmbH is an established German engineering office that has been delivering cast and forged steel products and services to the world market for almost 35 years. The company is well known to leading customers and manufacturers and seamlessly bridges the gap between producer and consumer through our dedicated engineering office based in Germany and our established range of suppliers in both Europe and Asia.

Over the past 20 years GVA Krefeld has established an extremely successful track record for the delivery of small, medium and large steel products to the steel production industry and for other applications. These include slagpots, ladles, ingot molds, casting plates, wear parts, drill tips and many more bespoke and build to print components.

Today GVA Krefeld provides solutions and products to more than 800 customers in 70 countries. Our certified manufacturers provide high volume capacities for castings up to 200 metric tonnes of single poured weight, forgings up to 140 metric tonnes and welding constructions up to a weight of 100 metric tonnes. If our sales or technical team can help with your requirements, we would be delighted to hear from you.
